II. Veterans Certification Procedures

Veterans are expected to achieve Satisfactory Academic Progress (SAP) to obtain and maintain veterans' benefits at Fielding Graduate University.

The Veterans Benefits School Certifying Official (SCO) will obtain from the Office of Student Advising the veteran's SAP status and the number of degree requirement units completed. The Veterans Benefits SCO will report the veteran's progress and degree requirement units to the Veterans Administration (VA). In some cases, enrollment status will be certified and/or amended at the end of each term.

Veterans who are reviewed and not found to be meeting SAP standards for the first time will be placed on Financial Aid Probation. Veterans on Financial Aid Probation are still eligible for VA benefits.

Veterans who are reviewed and not found to be meeting SAP standards for the second consecutive time will be placed on Financial Aid Disqualification. Veterans on Financial Aid Disqualification are not eligible for VA benefits.

Benefits cannot be certified retroactively for periods of Financial Aid Disqualification.

Once a student regains SAP, they may be eligible for VA benefits again.

All of Fielding Graduate University's policies can be read online in the [University Catalog](#). It contains policies regarding student rights & responsibilities, degree requirements, institutional policies, academic policies & financial policies.
